

TECHNICAL DATA SHEET

Trade Name:	Vitasome C		
INCI:	Aqua and Glycerin and 3-o-ethyl Ascorbic Acid and Lecithin and Lonicera Caprifolium Flower Extract and Lonicera Japonica flower Extract and Benzyl Alcohol and Benzoic Acid and Dehydroacetic Acid		
Cas. No:	7732-18-5, 56-81-5, 86404-04-8, 8002-43-5, 84603-62-3, 223749-79-9, 100-51-6, 65-85-0 and 520-45-6		
EINECS:	231-791-2, 200-289-5, 617-849-3, 232-307-2, 283-263-6, 202-859-9, 200-618-2 and 208-293-9	Article No:	224151

ITEM	STANDARD
Appearance	Beige -light brown, fluid
Odor	Lecithin typical
Particle Size	100-250nm
pH-value	3.5 – 6.0
Microbiological status	<100cfu/g

Product Description:

Vitasome C is highly soluble in water, with limited solubility in emollients. Its moderate pH makes it easy to incorporate into cosmetic formulations. Additionally, it is remarkably stable and does not discolor during storage or use.

Application:

It is used widely in Eye and skin cream.

Storage:

Vitasome C should be stored in its original packaging at 4°C in a dark place, away from direct sunlight. Ensure the container is lightly sealed to prevent microbial contamination.

Dosage:

3-8%

Shelf time:

2 years from manufacturing date
