

## TECHNICAL DATA SHEET

Trade Name:	Rewosure 3		
INCI:	n-C <sub>10-16</sub> -alkyltrimethylenedi		
Cas. No:	139734-65-9		
EINECS:	230-527-3	Article No:	W1720

ITEM	STANDARD
Appearance	liquid
Color	yellow
Chloride content %	1.75 – 1.85
Density / 20°C g/ml	0.9950 - 1.0050
pH-Value as is	7.7 – 8.3
Viscosity / 20°C mPa s	<=200
Active matter %	28.5 – 31.5

## TECHNICAL DATA SHEET

### Product Description:

Rewosure 3 is a neutral, deodorizing, and surface-active disinfectant ingredient. It effectively dissolves fats, has strong soil-carrying properties, and is compatible with most common materials. Rewosure 3 is free from aldehydes, active chlorine, and alkalis.

### Application:

Rewosure 3 is a biocide designed for use in terminal disinfectants, sanitizers, and detergent-sanitizer products for all hard surfaces in both household and industrial settings. It is suitable for formulations based on water or alcohol.

### Storage:

The product should be kept in its sealed original packaging and stored at temperatures between 10°C and 30°C. Exposure to temperatures below 0°C may cause damage to the product.

### Dosage:

Based on hygiene conditions and requirements, the recommended concentrations of Rewosure 3 range

- from 0.025% to 0.4% for complete disinfection and
- From 0.01% to 0.25% for antimicrobial cleaners.

The exact values depend on the final ready-to-use dilution.

### Shelf time:

2 years from manufacturing date
